

## Pawkit Upgrade Kit

This upgrade kit contains all parts needed to upgrade an AquLab Pawkit from a GE Panametrics MiniCap 2 (MC-2) sensor to a Honeywell (HCH-1000-001) RH sensor. The new sensor and PCBA in this kit have been fully tested for functionality but are **uncalibrated**.

Follow the battery replacement instructions to exchange out old parts with the new parts included in this kit. After re-assembly run a full Pawkit calibration.

***Upgrade Kit Is For Authorized Distributors Only***
